

REDiSAFE™ GUARDIAN PLUS MOVING AWAY FROM THE CONVENTIONAL DATA ASSURANCE

Guardian Plus, REDiSAFE newest release, makes it possible for organizations to be given the assurance that their data is well protected and easily recoverable when necessary. REDiSAFE Guardian Plus builds on the success of the v1.x family as a robust, secure and standards-based data protection solution. Enhancing its comprehensive features, the possibility for organizations to meet the demands for higher service level is simple.

With REDiSAFE, we capitalize on the capability of REDiSAFE, and gives you an alternative solution to the old traditional tape-only backup solutions for managing data. An alternative that will definitely raise operational recovery management to a higher level.

“Guardian Plus, your perfect solution for total data assurance!”

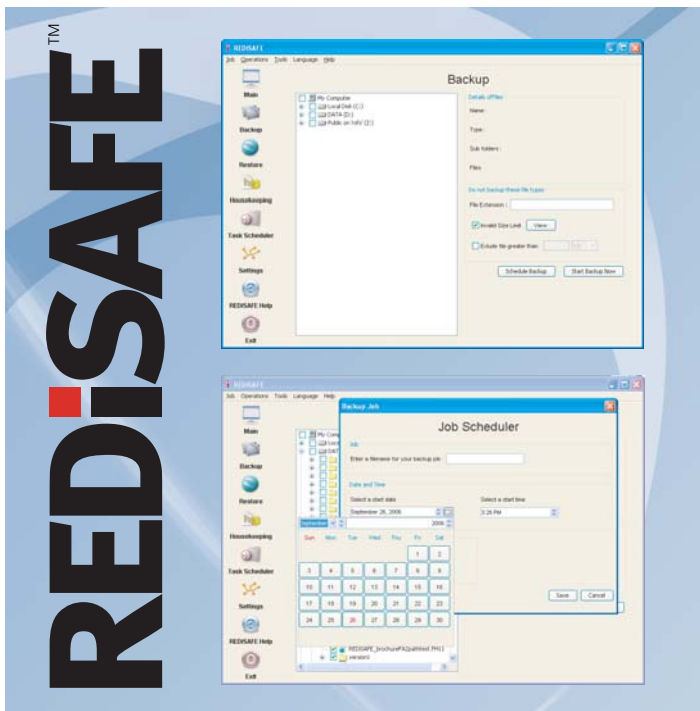

NEW FEATURES

Now REDiSAFE Guardian Plus brings you newer and more encryption algorithms that gives you even greater sense of security for your data, dynamic housekeeping functions and more statistical reports required by administrators.

With the new user interface, users are able to use REDiSAFE with even lesser training required. Users can automatically save time having to remember what to do, or where to locate their files or schedules. This allows the company to turn hassle time to efficient profits, lowering costs and increasing efficiency. REDiSAFE also provides multi-lingual interface to take care of the language needs of different users. Be it an overseas branch, or an expatriate in the company. They can use REDiSAFE at ease with these language provisions.

In addition to that, email has also grown to be one of the most important business tools. Contacts, contracts, agreements etc are all sent thru emails. To cater for this growing reliance on emails, REDiSAFE has incorporated the ability to backup emails that are using Outlook & Lotus Notes. Backing up emails are similar to the normal backing of files. You merely need to select the folders that you would like to backup, schedule it, and it's done! The backup of emails will automatically kick start by itself.

With all these new and enhanced features, the Guardian Plus will be your perfect solution for total data assurance!

Demo Version is on trial and can be downloaded for testing at <http://203.125.9.21>
Please note that the Service is a pre-release version. It may not work the way a final version of the Service will. We may change it for the final, commercial version. We may not release a commercial version. We also reserve the right to change the pre-release Service at any time without advance notice to you.
